# REPORT

ON THE

## EXTERNAL TRADE OF BENGAL

WITH

### NEPAL, TIBET, SIKKIM AND BHUTAN,

FOR THE YEAR 1889-90.

DURING the year under report, no change was made in the system under which the trade of Bengal with Nepal, Tibet, Sikkim and Bhutan is registered in these provinces. The classification of commodities, formerly prescribed by the Government of India, also remained unaltered, but the number of registering stations was increased from 38 in 1888-89 to 40 in 1889-90, there being an increase of two posts for the registration of the Tibet and Sikkim trade.

GENERAL  
NOTICE.

2. The abstract below shows the total value of the trade to, and from, Bengal only during the past year, as compared with the two previous years:—

Imports into Bengal.				Exports from Bengal.			
	1887-88	1888-89.	1889-90.		1887-88.	1888-89.	1889-90.
	Rs.	Rs.	Rs.		Rs.	Rs.	Rs.

3. The value of the registered trade with other provinces, which passed through Bengal during the past three years, is shown in the following statement:—

YEARS.	Imports into other provinces from Nepal.			Exports from other provinces to Nepal.
	Rs.			Rs.
1887-88	...	...	...	2,61,155
1888-89	...	...	...	2,01,527
1889-90	...	...	...	1,85,105

4. The gross value of these two sections of the registered trade during those years, was as follows:—

YEARS.	Imports.		Exports.	Total.
	Rs.		Rs.	Rs.
1887-88 ...	...	1,28,38,582	80,44,396	2,08,82,968
1888-89 ...	...	98,68,337	78,65,311	1,77,23,648
1889-90 ...	...	1,09,37,066	85,07,770	1,94,44,836

The foregoing figures show an advance of 8·85 per cent. in the total trade in comparison with the previous year, but they are still below the trade of 1887-88 by 6·89 per cent. The figures of that year were exceptional, especially in regard to imports into other provinces which were registered at Bengal stations, but the general tendency is distinctly in the direction of an increase in frontier traffic. Further details are given separately for each of the States in the following pages.

TRADE WITH  
NEPAL.

The total value of the trade between Bengal and Nepal registered during the past three years is shown in the sub-joined statement:—

YEARS.			Imports from Nepal.	Exports to Nepal.	Total.
			Rs.	Rs.	Rs.
1887-88	...	...	1,12,31,228	73,51,720	1,85,85,948
1888-89	...	...	93,97,491	74,30,836	1,68,28,327
1889-90	...	...	1,03,92,153	79,06,026	1,82,98,179

The aggregate value of the trade of the past year was 8·03 per cent. in excess of that of the previous year, but it was still 1·54 per cent. below the figures for 1887-88.

6. The usual comparative statement showing the total quantity and value of all the principal staples carried both ways during the past three years is appended. The figures shown here, however, are exclusive of the registered trade with other provinces which passed through Bengal.

The largest increase in the import traffic was under food-grains (7,38,174 maunds) and mustard seed, and the largest decrease under treasure (Rs. 5,31,371), linseed, and timber; while in the export traffic European cotton piece-goods alone showed an advance of Rs. 6,17,501, against slight decreases under silk and woollen piece-goods:—

7. *Cattle*.—The import has remained almost stationary during the past two years.

8. *Cotton piece-goods*.—There was a further large increase in the exports of European piece-goods, the value having risen by Rs. 6,17,501, or 21·05 per cent., in comparison with 1888-89, and by Rs. 10,06,537, or 34·31 per cent., as compared with 1887-88. The total value of unsaleable goods brought back to British territory was also larger than usual, namely, Rs. 1,00,725, against only Rs. 18,411 in 1888-89 and Rs. 20,361 in 1887-88. The trade in Indian piece-goods was very much the same as in the two previous years. The following abstract shows the exports of European piece-goods registered at the different stations during the past three years:—

10. *Hides of Cattle.*—The increase noticed in the previous report was maintained, the supplies received showing an advance of 6,185 pieces and 12,744 pieces on the returns of 1888-89 and 1887-88, respectively. The stations at which the largest imports were registered are—

11. *Skins of sheep, goats, and other small animals.*—Compared with 1888-89, the import trade in skins showed a large increase of 29,856 pieces, but when compared with 1887-88, the figures show a falling off. As usual, the largest traffic passed through the Bairagnia frontier station in Mozufferpore.

12. *Brass and copper.*—The exports under this head are steadily increasing. By far the largest supply was exported through the Chumparun and Purneah districts.

13. *Iron.*—There was very little change in the total quantity of iron carried to Nepal during the past year.

14. *Ghee.*—The import trade in ghee continued active, the increase amounting to 2,220 maunds as compared with the previous year, and 6,168 maunds as compared with 1887-88. The statement below gives the names of the different stations at which the largest quantities of ghee were registered during the three years :—

the total of 1887-88. The following are the stations where the largest quantity was registered during the three years:—

17. *Oilseeds*.—Under this head, linseed and mustard seed are the only two staples in which the trade is important. The traffic, which is practically confined to imports, shows a decrease of 70,794 maunds, or 41.94 per cent., under linseed, and an increase of 1,60,997 maunds, or 57.54 per cent., under mustard seed as compared with the trade of the previous year. The districts which imported the largest quantities of linseed were—Mozufferpore (36,884 maunds), Chumparun (24,964 maunds), Purneah (14,544 maunds), and Durbhunga (10,974 maunds), and those to which the largest consignments of

18. *Spices.*—The fluctuation in the exports under this head was not very great, the total quantity registered being only 2,399 maunds in excess of the figures for the previous year, and 784 maunds over those for 1887-88. The stations at which the largest supply was registered during the past three years are named below:—

19. *Tobacco.*—The quantity imported during 1889-90 showed a further advance, amounting to 1,785 maunds, the supplies being 53,344 maunds, against 51,559 maunds in 1888-89 and 13,574 maunds in 1887-88. There was an

increase of 2,414 maunds in Purneah, 447 maunds in Mozufferpore, and 59 maunds in Bhagulpore and Chumparun, against a decrease of 1,032 maunds in Durbhunga and 103 maunds in Gya. In the export trade, the figures remained almost the same as in the two previous years.

20. *Timber.*—The trade in timber, which is purely import traffic, amounted during the past year to 1,39,323 maunds, which was 35,855 maunds below the quantity received in 1888-89, and 64,896 maunds below that received in 1887-88. The chief fluctuations during the past year were an increase of 15,608 maunds in the Purneah district, and a decrease of 47,136 maunds in Chumparun. The undermentioned stations registered the supplies during the past three years:—

21. *Wool, manufactured.*—The improvement noticed in the exports in 1888-89 was not maintained. The chief falling off was in the supplies consigned from Calcutta, which were valued at only Rs. 13,311, against Rs. 76,420 in the preceding year.

22. *Silver.*—The chief feature in the imports of treasure is a falling off of Rs. 5,31,371 and Rs. 6,18,199 respectively in comparison with the figures for 1888-89 and 1887-88. The fluctuations are due to an alteration of the procedure adopted in the Chumparun district in the registration of traffic under this head. Formerly the figures included statistics of treasure brought from Nepal for the purchase of goods in British territory, whereas the figures for 1889 do not include them. Under the orders of the Government of India, district officers have now been informed that the proper procedure is to register treasure just like any other sort of merchandise if it is possible to obtain the statistics, and it has been pointed out that for purposes of registration it is a matter of indifference whether treasure is consigned for the purchase of commodities or not. The principal registering stations were—

TRADE WITH  
NEPAL.

23. In last year's report it was pointed out that the information furnished by the frontier district officers regarding the customs duties levied by the Nepalese Government was obscure and contradictory, and it was stated that those officers would be asked to attempt to obtain precise information on the subject during their cold-weather tour. From enquiries made it appears that on the frontier of the Chumparun district no change was made during the year under report in the rates of duty. The Collector of Bhagulpore reports that the Nepalese Government have abolished imposts since September 1888 except on hides, the tax on which is levied under the contract system. From Durbhunga it is reported that, with the exception of *sabey*, a kind of grass, and *tejpat* (bay leaves), no articles are taxed by the Nepalese Government. The Collector states that "the tax hitherto collected has been, it is said, amalgamated with the rents of each cultivator's holding at the rate of  $1\frac{1}{2}$  anna in the rupee; but the ryots of the Nepal territory, while selling their produce to purchasers of British India, impose an extra charge to recoup themselves at the rate of 3 lobia pice in the rupee, one-third of which goes to the weighman as his remuneration, and the remaining two-thirds are appropriated by the party selling the grain." As regards the Mozufferpore district, it is stated that the report made in 1888-89 that the Nepalese Government had ceased to levy taxes on imports and exports was on the whole correct, and, so far as can be gathered, the former impost on grain, called *dhuroraye*, has been abolished. To make up for the loss thus caused to Government, there appears to have been substituted a general enhancement of rent. An impost, called *syer*, is said to be levied at varying rates on certain articles of import and export, and a further impost, called *bhinsar*, is levied on those articles if they are carried up to the hills.

The Collector of Purneah reports that customs duties were abolished in 1888-89, and that "there were never any import duties, and the export duties have been incorporated in the ryots' *jummas*, which are at the rate of Rs. 2-8 per *hât* or yoke of oxen, and are very much less than the rents taken by the zemindars on bordering British territory. Subordinate officials sometimes extort fees from the traders without the knowledge of the responsible officers of the Nepal Government. Grazing fees at the rate of Re. 1-2 for each buffalo and 9 annas for each cow are charged on cattle taken into the Nepal jungles, and the chowdhry who farms the jungles levies these fees oppressively." The replies to the enquiries made by the Joint-Magistrate of Kurseong show that there is "no precision as to the rates taken at the different customs stations, and that the farmers practically collect as much as they can in the way of duties."

TRADE WITH  
TIBET AND  
SIKKIM.

24. In September 1889, the Deputy Commissioner of Darjeeling having reported that a new road had been opened direct from Pakyong to Pedong, by which traffic from Sikkim to Damdim could be carried without passing the registering stations at Rhenok and Kalimpong, a change in the existing stations for the registration of traffic with Tibet and Sikkim became necessary. Mr. Paul accordingly proposed to remove the registration station from Kalimpong to Laba, and that at Rhenok back to Pedong, the Runjeet station remaining where it was. This arrangement was approved by Government, and registration of trade was started at the new stations from the 1st January 1890. The total value of the trade registered during the past year is compared below with that of the two previous years:—

The rates given are in English money, and are levied on imports into Nepal only on articles which are not taken to shops of traders or to hats in Nepal. As to articles exported from Nepal and imported into India, nothing is taken from those persons who buy grain from cultivators and pay the *Kayali* (a fee for weighing the grain), nor from those persons who buy at hats in Nepal and pay hat dues there.

The import and export duties levied on articles taken to the fair at Bara Chatr continue the same as before, viz. :—
